QUARTERLY REVIEW

INDEX - Volume 76, 1991

SUBJECTS

Abdominal surgery
Closure of abdominal wounds with continuous nonabsorbable sutures: experience in 1697 cases 159

Abdominal trauma
Management of abdominal contusion in polytraumatized children 119

Abnormalities
Pattern of congenital malformations in Nigerian children 43

Acalculous cholecystitis
Acute acalculous cholecystitis 146

Acute cholecystitis
Acute acalculous cholecystitis 146

Adenocarcinoma
Adenocarcinoma of the small intestine 230

Adipose tissue
Suction lipectomy receding pregnancy and postpartum results 105

Amoebiasis
Amoebic liver abscess. Review of 220 cases 81

Antibiotics
Antibiotic prophylaxix for biliary tract surgery: selection of patients and agent 131

Anus
Detrusor-rectal neck dyssynergia syndrome. A new syndrome with report of nine cases 241

Ascariasis
Biliary ascariasis 27

Autopsy perinatal
Pattern of congenital malformations in Nigerian children 43

Bile
Antibiotic prophylaxix for biliary tract surgery: selection of patient and agent 131

Bile duct
Biliary ascariasis 27

Biliary surgery
Wound infection following biliary surgery. A prospective surgery 77

Biliary tract disease
Antibiotic prophylaxix for biliary tract surgery: selection of patient and agent 131

Bladder neoplasms
Urine cytology in bladder tumors 52

Blunt dissection
Surgical treatment of carcinoma of the esophagogastric junction 205

Bone tumors
Free microvascular fibular versus conventional bone grafts 33

Breast lump
Cystosarcoma phylloides of the breast: a review of clinical, pathological and therapeutic option in 18 cases 101

Breast neoplasms
Volume corrected mitotic index (M/V index), mitotic activity index (MAI), and histological grading in breast cancer 245

Bronchial carcinoid
Surgical treatment of bronchial carcinoid tumours. Radical surgery prognosis 98

Budd-Chiari syndrome
Successful treatment of Budd-Chiari syndrome with early gastric cancer 55

Carcinoma
Pulmonary metastasis in nevoid basal cell carcinoma syndrome 64

Cardiovascular disease
The relationship of diet to cancer, cardiovascular disease and longevity..... 1

Cervicotomy
Surgical treatment of substernal goiters 12

Cervico-mediastinal goiter
Surgical treatment of substernal goiters 12

Children
Management of abdominal contusion in polytraumatized children 119

Cholangitis
Duodenoscopic sphicterotomy for common bile duct stones in patients with gallbladder in situ 142

Cholecystostomy
Ultrasound guided percutaneous cholecystostomy 189

Chronic venous insufficiency disease
Chronic venous insufficiency disease. Its etiology. A new technique for vein valve transplantation 174

Clindamycin
Prophylactic use of a single dose of tobramycin in elective colorectal syndrome 127

Colonic lesions
Colonic involvement in pancreatitis. Six cases more 122

Colorectal surgery
Prophylactic use of a single dose of tobramycin in elective colorectal syndrome 127

Common bile duct
Antibiotic prophylaxix for biliary tract surgery: selection of patient and agent 131

Common bile duct stenosis
Duodenoscopic sphincterotomy for common bile duct stones in patients with gallbladder in situ 142

Complications
Mechanical complications of subclavian vein catheterization. A prospective study 18

Computed tomography
Ultrasonography and computed tomography in the diagnosis of portomesenteric vein thrombosis 179

Congenital pseudoarthrosis
Free microvascular fibular versus conventional bone grafts 33

Congo red
Proximal gastric vagotomy. A comparative study between the standard technique and the extended technique associated with denervation of the greater curvature 137

Conservative management
Management of abdominal contusion in polytraumatized children 119

Constipation
Detrusor-rectal neck dyssynergia syndrome. A new syndrome with report of nine cases 241

Cystosarcoma phylloides
Cystosarcoma phylloides of the breast: a review of clinical, pathological and therapeutic option in 18 cases 101

D-cells
Glucose intolerance and hyperplasia of islet D-cells after partial hepatectomy in dogs 72

Dacron
Are synthetic prostheses really inert? Preliminary results of a study on the biocompatibility of Dacron vascular prostheses and silicone skin expanders 115

Diet
The relationship of diet to cancer, cardiovascular disease and longevity 1

Discectomy
Percutaneous discectomy using the electromagnetic field focusing probe. A feasibility study 30

Duodenal ulcer
Proximal gastric vagotomy. A comparative study between the standard technique and the extended technique associated with denervation of the greater curvature 137

Duodenoscopic sphincterotomy
Duodenoscopic sphincterotomy for common bile duct stones in patients with gallbladder in situ 142

Drainage
Ultrasonically guided pleural tap 172

EFF
Percutaneous discectomy using the electromagnetic field focusing probe. A feasibility study 30

Emphysema
Giant emphysematous bullae: surgical treatment using the median sternotomy approach 168

Emphysematous bullae
Giant emphysematous bullae: surgical treatment using the median sternotomy approach 168

Empyema of gallbladder
Ultrasound guided percutaneous cholecystostomy 189

Endoscopic papillotomy
Endoscopic papillotomy under ultra-sonographic control 75

Endoscopic retrograde cholangiopancreatography
Duodenoscopic sphincterotomy for common bile duct stones in patients with gallbladder in situ 142

Endoscopic treatment
Endoscopic papillotomy under ultra-sonographic control 75

Endotoxins
Endotoxemia is masked in fungal infection due to enhanced endotoxin clearance by beta-glucan 255

Esophageal neoplasms
Feasibility and effectiveness of en bloc resection of the esophagus for esophageal cancer. Results of a prospective study 209

Esophageal varices
Gastric bleeding after endoscopic injection sclerotherapy for esophageal varices may be fatal 214

Esophagogastric junction neoplasms
Surgical treatment of carcinoma of the esophagogastric junction 205

Esophagus
Feasibility and effectiveness of en bloc resection of the esophagus for esophageal cancer. Results of a prospective study 209

Experimental free bone transfer
Free microvascular fibular versus conventional bone grafts 33

Experimental surgery
Left lung allotransplatation in pig feasibility and transplanted lung function 149

Extended right hemicolectomy
Obstructing carcinoma of the left colon: treatment by extended right hemicolectomy . 161

Fine needle aspiration
Surgical treatment of thyroid cancer 49

Fracture
Value of osteomedullography in the early diagnosis of non-union in tibial diaphyseal fractures 199

Free microvascular bone grafts
Free microvascular fibular versus conventional bone grafts 33

Gallbladder
Acute acalculous cholecystitis 146
Antibiotic prophylaxix for biliary tract surgery: 1 3 selection of patient and agent .....

Gallstones
Duodenoscopic sphincterotomy for common bile duct stones in patients with gallbladder in situ 142

Gastrectomy
Interposition of the first jejunal loop for reconstruction after total gastrectomy .. 91

Gastric acid secretion
Proximal gastric vagotomy. A comparative study between the standard technique and the extended technique associated with denervation of the greater curvature 137

Gastric cancer
Stomach cancer: a study of 117 consecutive resected cases and results of R2-R3 gastrectomy 23
Successful treatment of Budd-Chiari syndrome with early gastric cancer 55

Gastric neoplasms
Extracapsular lymphnode metastases in the staging and prognosis of gastric cancer 218
Surgical treatment of advanced gastric cancer with metastasis in para-aortic lymph node 222

Gastric neoplasms, prognostic factors
Extracapsular lymphnode metastases in the staging and prognosis of gastric cancer 218

Gastric hemorrhage
Gastric bleeding after endoscopic injection sclerotherapy for esophageal varices may be fatal 214

Glucans
Endotoxemia is masked in fungal infection due to enhanced endotoxin clearance by beta-glucan 255

Glucose
Glucose intolerance and hyperplasia of islet D-cells after partial hepatectomy in dogs 72

Goiter
Surgical treatment of substernal goiters 12

Hepatic metastasis
Patient selection and factors affecting results following resection for hepatic metastases from colorectal carcinoma 58

Hepatic resection
Patient selection and factors affecting results following resection for hepatic metastases from colorectal carcinoma 58

Histology, grading
Volume corrected mitotic index (M/V index), mitotic activity index (MAI), and histological grading in breast cancer 245

Hydatid cyst
Surgical treatment of hydatid cysts of the pancreas 185

Hyperthermia
Radiotherapy-centered multimodal treatment unresectable pancreatic carcinoma 87

Hyperthermia, induced
Intra-peritoneal chemo-hyperthermia (CHiP) a new therapy in the treatment of peritoneal seedings. Preliminary report 164

Hysterectomy
Emergency obstetric hysterectomy in eastern Nigeria 109

Idiopathic femoral head necrosis
Free microvascular fibular versus conventional bone grafts 33

Infection
Antibiotic prophylaxix for biliary tract surgery: selection of patients and agent 131
Use of semiocclusive, transparent film dressing for surgical wound protection: experience in 3637 cases 253

Inflatable cuff
Left lung allotransplantation in pig feasibility and transplanted lung function 149

Inguinal hernia
Possibilities of preperitoneal approach methods in the treatment of groin hernias 154

Insulin
Effects of surgical stress on glucose-stimulated insulin release from isolated perfused rat pancreas 250
Glucose intolerance and hyperplasia of islet D-cells after partial hepatectomy in dogs 72

Intestine, small
Adenocarcinoma of the small intestine 230

Intraoperative irradiation
Radiotherapy-centered multimodal treatment of unresectable pancreatic carcinoma ... 87

Intravenous urography
Value of ultrasound in persistent flank pain 264

Intussusception
Arterial microanastomosis technique by using only one stitch 112

Kidney
Management of abdominal contusion in polytraumatized children 119

Laparoscopy
Treatment of lymphocele following renal transplantation by laparoscopic surgery 261

Laparotomy
Closure of abdominal wounds with continuous nonabsorbable sutures: experience in 1697 cases 159

Lasers
Successful treatment of Budd-Chiari syndrome with early gastric cancer 55

Liver
Management of abdominal contusion in polytraumatized children 119

Liver abscess
Amoebic liver abscess. Review of 220 cases 81

Liver, transplantation
Arterial reperfusion in human orthotopic liver transplantation by anastomosis of the celiac trunk to the right or left hepatic artery of the recipient 69

Longevity
The relationship of diet to cancer, cardiovascular disease and longevity 1

Lung transplantation
Left lung allotransplantation in pig feasibility and transplanted lung fuction 149

Lymph node metastases
Stomach cancer: A study of 117 consecutive resected cases and results of R2-R3 gastrectomy 23

Lymphadenectomy
Surgical treatment of advanced gastric cancer with metastasis in para-aortic lymph node 222

Lymphocele
Treatment of lymphocele following renal transplantation by laparoscopic surgery 261

Median sternotomy
Giant emphysematous bullae: surgical treatment using the median sternotomy approach 168
Surgical treatment of substernal goiters 12

Mesenteric vein thrombosis
Ultrasonography and computed tomography in the diagnosis of portomesenteric vein thrombosis 179

Metastasis pulmonary
Pulmonary metastasis in nevoid basal cell carcinoma syndrome 64

Microanastomosis
Arterial microanastomosis technique by using only one stitch 112

Mitotic index
Volume corrected mitotic index (M/V index), mitotic activity index (MAI), and histological grading in breast cancer 245

Multi-stage surgery
Obstructing carcinoma of the left colon: treatment by extended right hemicolectomy 161

Mycotic infections
Endotoxemia is masked in fungal infection due to enhanced endotoxin clearance by beta-glucan 255

Nephrotoxicity
Prophylactic use of a single dose of tobramycin in elective colorectal syndrome 127

Nevoid basal cell
Pulmonary metastasis in nevoid basal cell carcinoma syndrome 64

Obstetrics
Emergency obstetric hysterectomy in eastern Nigeria 109

Obstructing carcinoma
Obstructing carcinoma of the left colon: treatment by extended right hemicolectomy 161

Obstructive jaundice
Endoscopic papillotomy under ultra-sonographic control 75

Oesophageal varices
Segmental splenectomy and extraperitoneal splenic transplantation with gastroesophageal devascularization in treatment of oesophageal varices. A new technique .. 6

Osteitis
Free microvascular fibular versus conventional bone grafts 33

Osteomedullography
Value of osteomedullography in the early diagnosis of non-union in tibial diaphyseal fractures 199

Pancreas
Surgical treatment of hydatid cysts of the pancreas 185

Pancreas endocrine
Effect of surgical stress on glucose-stimulated insulin release from isolated perfused rat pancreas 250

Pancreatic neoplasms
Pancreatoduodenectomy without pancreaticojejunostomy 183

Pancreatitis
Colonic involvement in pancreatitis. Six cases more 122

Pancreatoduodenectomy
Pancreatoduodenectomy without pancreaticojejunostomy 183

Para-aortic lymph node
Surgical treatment of advanced gastric cancer with metastasis in para-aortic lymph node 222

Parathyroid cyst
Recurrent nerve palsy due to parathyroid cyst 192

Partial hepatectomy
Glucose intolerance and hyperplasia of islet D-cells after partial hepatectomy in dogs 72

Percutaneous biliary drainage
Ultrasound guided percutaneous cholecystostomy 189

Percutaneous transluminal angioplasty
Successful treatment of Budd-Chiari syndrome with early gastric cancer 55

Perfusion
Effect of surgical stress on glucose-stimulated insulin release from isolated perfused rat pancreas 250

Peritoneal absorption
Long term peritoneal nutrition in dogs, both normal and after intestinal resection..... 235

Peritoneal nutrition
Long term peritoneal nutrition in dogs, both normal and after intestinal resection 235

Pigs
Left lung allotransplantation in pig feasibility and transplanted lung function 149

Pleural effusion
Ultrasonically guided pleural tap 172

Portal vein thrombosis
Ultrasonography and computed tomography in the diagnosis of portomesenteric vein thrombosis 179

Pregnancy postpartum
Suction lipectomy receding pregnancy and postpartum results 105

Preperitoneal approach
Possibilities of preperitoneal approach methods in the treatment of groin hernias 154

Prosthetic repair ultrasound
Possibilities of preperitoneal approach methods in the treatment of groin hernias 154

Proximal gastric vagotomy
Proximal gastric vagotomy. A comparative study between the standard technique and the extended technique associated with denervation of the greater curvature 137

Pseudoarthrosis
Free microvascular fibular versus conventional bone grafts 33

Pugh nail
Trochanteric fractures treated with the pugh nail: a study of 270 cases 194

R2-R3 gastrectomy
Stomach cancer: A study of 117 consecutive resected cases and results of R2-R3 gastrectomy 23

Rat
Arterial microanastomosis technique by usign only one stitch 112

Reconstruction
Interposition of the first jejunal loop for reconstruction after total gastrectomy .. 91

Rectum
Detrusor-rectal neck dyssynergia syndrome. A new syndrome with report of nine cases 241

Recurrent laryngeal nerve paralysis
Recurrent nerve palsy due to parathyroid cyst 192

Renal colic
Value of ultrasound in persistent flank pain 264

Renal transplantation
Treatment of lymphocele following renal transplantation by paparoscopic surgery 261

Risk factors
Antibiotic prophylaxix for biliary tract surgery: selection of patients and agent 131
Wound infection following biliary surgery. A prospective surgery 77

Sclerotherapy, endoscopic injection
Gastric bleeding after endoscopic injection sclerotherapy for esophageal varices may be fatal 214

School surgery
Pattern of congenital malformations in Nigerian children 43

Serum gastrin
Proximal gastric vagotomy. A comparative study between the standard technique and the extended technique associated with denervation of the greater curvature 137

Serum pepsinogen
Proximal gastric vagotomy. A comparative study between the standard technique and the extended technique associated with denervation of the greater curvature 137

Silicone
Are synthetic prostheses really inert? Preliminary results of a study on the biocompatibility of Dacron vascular prostheses and silicone skin expanders 115

Skin expander
Are synthetic prostheses really inert? Preliminary results of a study on the biocompatibility of Dacron vascular prostheses and silicone skin expanders 115

Somatostatin
Glucose intolerance and hyperplasia of islet D-cells after partial hepatectomy in dogs 72

Spleen
Management of abdominal contusion in polytraumatized children 119

Stomach neoplasms
Pancreaticoduodenectomy in combination with right hemicolectomy for surgical treatment of advanced gastric carcinoma located in the lower half of the stomach 226

Subclavian vein catheterization
Mechanical complications of subclavian vein catheterization. A prospective study 18

Subdiaphragmatic abscess
Subdiaphragmatic abscesses: myths and realities. A repair on 62 cases 84

Suction lipectomy
Suction lipectomy receding pregnancy and postpartum results 105

Surgical drainage
Subdiaphragmatic abscesses: myths and realities. A repair on 62 cases 84

Surgical stress
Effect of surgical stress on glucose-stimulated insulin release from isolated perfused rat pancreas 250

Surgical dressings
Use of semiocclusive, transparent film dressing for surgical wound protection: experience in 3637 cases 253

Surgical jaundice
Ultrasound guided percutaneous cholecystostomy..... 189

Suture techniques
Closure of abdominal wounds with continuous nonabsorbable sutures: experience in 1697 cases 159

Survival
Stomach cancer: A study of 117 consecutive resected cases and results of R2-R3 gastrectomy 23

Thoracophrenicolaparotomy
Surgical treatment of carcinoma of the esophagogastric junction 205

Thoracotomy
Surgical treatment of substernal goiters 12

Thyroid
Surgical treatment of substernal goiters 12

Thyroid cancer
Surgical treatment of thyroid cancer 49

Tissue reaction
Are synthetic prostheses really inert? Preliminary results of a study on the biocompatibility of Dacron vascular prostheses and silicone skin expanders 115

Tobramycin
Phophylactic use of a single dose of tobramycin in elective colorectal syndrome 127

Trochanteric fractures
Trochanteric fractures treated with the pugh nail: a study of 270 cases 194

Ultrasonics
Ultrasonically guided pleural tap..... 172

Ultrasonography
Subdiaphragmatic abscesses: myths and realities. A repair on 62 cases 84
Ultrasonography and computed tomography in the diagnosis of portomesenteric vein thrombosis 179

Ultrasound
Ultrasound guided percutaneous cholecystostomy 189
Value of ultrasound in persistent flank pain 264

Unresectable pancreatic carcinoma
Radiotherapy-centered multimodal treatment of resectable pancreatic carcinoma 87

Urine cytology
Urine cytology in bladder tumors 52

Vascular prosthesis
Are synthetic prostheses really inert? Preliminary results of a study on the biocompatibility of Dacron vascular prostheses and silicone skin expanders 115

Vein valve incompetency
Chronic venous insufficiency disease. Its etiology. A new technique for vein valve transplantation 174

Vein valve transplantation
Chronic venous insufficiency disease. Its etiology. A new technique for vein valve transplantation 174

Wound closure
Closure of abdominal wounds with continuous nonabsorbable sutures: experience in 1697 cases..... 159

Wound healing
Use of semiocclusive, transparent film dressing for surgical wound protection: experience in 3637 cases..... 253

Wound infection
Prophylactic use of a single dose of tobramycin in elective colorectal syndrome 127
Wound infection following biliary surgery. A prospective surgery 77
